CLARESHOLM, ALBERTA, FEBRUARY 10, 1916

NO. 51

EFFECT OF FRANK CARVELL'S FIVE HOUR SPEECH

By H. F. G.

Dr. Pugsley may plant Arthur in the Liberal Party by his decided, but it Frank Carvell, M. P., who giveth to increase. In other words! Member for Carlton, N. B., is a first class fighting man and believes in spelling all the beans instead of one bean at a time.

The moral effect of his five hour speech recently in Ottawa to dislodge a constitutional attack on the Old Shell Committee, the hat contracts made by the Agricultural Department in New Brunswick, and the perfidious operations of the Davidson Commission lingers yet. It lingered so much that day after the speech a Conservative caucus was held at which nothing else was talked about.

If this were so, Notice of Motion was taken that the Government support had to take such a grueling.

Some took it with a wry face, as for example Captain John Hampden Burnham, who unclosed his hairy knuckled in the mids of Mr. Carvell's most glowing periods, and asked, "Why all these words?" Burnham is a soldier and a naval officer, he joined the Liberal party when he found the language was to take place over in Europe. He did not calculate that an old artillery colonel like Frank Carvell would be operating a curtain of fire against his party friends. Hence Burnham's outburst.

Bennett of Simeon on the other hand, ventured the opinion that the Liberals ought to take up a cause. He did not think Frank Carvell with a gold watch for teaching them how to put up a good battle. Which seems to show that there is a scold of the Conservative party that would like to see more of it, though now that can be, after the through way in which Carvell carried his point, it is hard to believe. At all events everybody agreed that Frank Carvell was a big gun and that a how-sprited round from him were highly destructive. Even if he doesn't get the enquiry into the old Shell Committee, which he demands will have succeeded in putting the fear of the Lord into the predators. This is itself is no mean feat.

For fear of the word because any one who knows Frank Carvell knows that there is more behind. No man uses less flub dub and more fact than the member for Carlton, N. B. His reputation, as the Opposition's gun man is as useful to him as a bullet to a detective. He is the greatest recipient of underground information in Canada. The terrible details flock to him from all over the country and as Frank Carvell is a lawyer and knows what evidence means his informants don't try to put him off with backyard gossip. The hot stuff comes to him properly fortified with affidavits and original documents. It's a safe bet then when Frank Carvell has his five hour speech he has material for a fine month's enquiry at the back of it, and that his real belief is a tight fit for the office vault.

What Frank Carrell did Tuesday was merely to state the indictment. Being a good player he does not throw his hand on the table. His gripes are many and he has his usual salvo. It was full of salient points. In fact it was all salient points and every point impaled a humbug. He left the salient points sticking in the Government's hide and naturally there was some quelling.

In the excitement of Carvell's attack on the Old Shell Committee people may overlook his opening remarks in which, as a business man he took a shrewd glance at the finances of the country. A billion dollar national debt, fifty millions annual interest, thirty million our annual pension bill. No doubt Finance Minister will go further into this phase of the question. Carvell's speech is far from certain that the influx of immigration after the war will put enough land under tillage and create enough taxable assets to make up the deficits. This sinister forward was a fitting introduction to his tale of brigandage in the Old Shell Committee.

After dipping into the sad plight of

Men, Hear the Call!

Hear the call, men, hear the call!
Give yourself, your best, your all!
All is asked and must be given—
Yea, though home or heart be riven!

Follow the drums, the drums, the drums!
Save your souls, and follow the drums!

Britain's honor is the stake!
Give your heart-blood for her sake!
Count the cost of life as naught!
Ne'er was freedom lightly bought!

Follow the drums, the drums, the drums!

Save your souls, and follow the drums!

Sterner, sterner grows the call;
Make your choice, 'tis now for all!
Linger not in sheltered shame!
Challenge death for Britain's fame!

Follow the drums, the drums, the drums!

Save your souls, and follow the drums!

—George Frankland.

The Transvaal shops which started up recently with an order for D. A. C. Co. to become a government institution, and which has been a great success, has now filled the rest of the building.

He cited the correspondence of Gen. Sir Alexander Hartington with the Duluth Copper and Foundry Company, of Woodstock, N. B., as a good example. As soon as the old Shell Committee was formed, so too of friends that the Alton-Brown Company, of New Glasgow, N. S., which had twice tried to slip a lot of bad shells past the inspector, was still allowed to go on manufacturing.

Mr. Carrell noted, not as heavily as he might have done, as it is heavily to do with the government, that the horses which you see, was a considerable undertaking. He added that Sir Adam Beck, will take a lot of explaining. When these horses were afterwards sold up immediately at Brampton market they passed with laurels and brought fancy prices. It seems that Sir Adam looks a girl up in the mouth—particularly when it is mentioned that the suggestion is made that Sir Adam didn't want Mr. Cox's name to compete with his in the news papers.

From horses to hives is but a step and here Mr. Carrell ended his remarks. It seems that some of Mr. Hazen's friends operated a hay squeeze in New Brunswick farmers get \$17 a ton, while the same in Nova Scotia farmers get \$17 a ton. The price of hay is the same in both provinces.

The real question is how did "Barney" do nothing to jeopardize his position as a member of the Canadian Parliament by accepting a small sum from the Royal Canadian Mounted Police? And in B. N. A. Act took no hint from him although one of sheer conscience might not have done it. As it is, a religious person put it, in question between the man and his Maker—that is to say between the M. P. at Pictou and his Shell Maker at Montreal.

The real question is how did "Barney" get the contract? It must have been through the "Barney" connection. A smile like a morning in May, and Major General Sam has to have blithe hearts about him. We have the Major General's word for it that "he never interfered with the Old Shell Committee in giving contracts or fixing prices," but we also have this further declaration: "I am the father of the Canadian Conservative party." As a father can't it be his duty to know how the Shell Committee was handling a glad young thing like "Barney"? And there Frank Carrell left.

Conservative members often wonder at the fierceness of the Carrell attack. His friends who happen to know what he is doing back wonder at his moderation.

Tea will be served by the Red Cross Society.

beginning of our houses the coming spring. A little paint applied to the house and a little labor applied to the lake and how around our gardens and a few trees, shrubs and flowering plants for the front lawn and small fruits for the vegetable garden, will add greatly to the value of our home.

We should get our paint and lumber at a reasonable price and good of Alberta. We should get our trees, shrubs, flowers and small fruits from an Alberta nursery—a word here. It is to our advantage to get our nursery stock from Alberta nurseries for two reasons: one reason is that you are being loyal to the Province and to your neighbors; the other reason is that the nursery stock will grow in Alberta, while Eastern grown stock, in trying to grow at a great disadvantage, will often fail.

Let our money for labor and material be spent in Alberta.

OVERSEAS CLUB TOBACCO FUND

The following letter from the Overseas Club explains itself.

Montreal, W. C., January 19, 1916.
The Manager,
The Canadian Bank of Commerce,
Clarendon, Alberta.

Dear Sir—

I am most grateful for the contribution of \$125, which your district has so generously contributed to our Tobacco Fund. Will you please display this letter in order to let those who have not seen it know that we warmly appreciate their help.

Probably you know that the tobacco and cigar tax that we send to the Canadian烟 are manufactured by Messrs. Macmillan, of Hamilton, and the Imperial Tobacco Co., of Canada. Messrs. Macmillan and the Imperial Tobacco Co. have sent us many letters received from the front, these snakes and everyone, from reports going to the front, to the filling of your Canadian men.

I am enclosing a copy of the balance sheet of the first twelve months working of the Fund, duly audited by Messrs. Stevenson, Bennett, Sons & Co. You will see from this that every penny contributed to the Fund has been or is being expended for the purchase of tobacco.

I hope your district will continue their generosity to the work.

I am satisfying the snake needs of the greater part of the fighting forces of Empire, and the demand is insatiable.

Yours very truly,

EVELYN WRENCH,
Hon. Secretary and Organizer,

At the Woman's Institute and Red Cross meeting to be held at the Red Cross room, Saturday afternoon, at four o'clock, a delegate will be appointed to the convention to be held in Edmonton, March 1 and 2.

WALKER--GARDINER

James Walker, Manager of the Canadian Bank of Commerce and Miss Gardiner, his wife, were married at six o'clock Wednesday evening in the Presbyterian church, by Rev. W. E. MacNiven. After the wedding breakfast, which was served at Mr. and Mrs. W. R. Shanks' home, the young couple left on the north bound train for Calgary.

You Never

wed suffer from chapped hands, cold sores, insect bites, or other winter complaints. See how easily the example of hundreds of others, and apply Zambuk.

The ointment relieves the sore, relieves the pain almost immediately, eases the damaged tissues and so assures the child a quick recovery, new healthy skin is quickly formed.

The antiseptic properties of Zambuk are well known to physicians, and other complications.

An occasional application of Zambuk will relieve the pain and soothe, and every mother should see that the children use it after cuts, burns, ulcers, abscesses, eczema, ringworm and other skin diseases.

All druggists and stores, 25c. box, 2 for \$1.35.

India's Millions

Ready and Waiting

India is Proud to Participants in the War of the Empire.

Two thousand delegates, representing all communities, were present at the All India National Congress at Bombay, which was planned for the loyalty and support of the forces of the empire.

"Millions in India are ready to serve," was the keynote of the opening speeches.

In a presidential address Sir Syed Ayyub Ali said the supreme feeling of India was "determination for the welfare of the Empire for the bearing in the struggle for liberty and independence."

The speaker admitted that the time had not arrived for self-government in India, but he urged the government to approve unconditionally the right of self-determination for the rest of the empire in the assistance of the Allies.

Continuing, Sir Ayyub expressed the hope that spontaneous outbreaks of loyalty would forever allay distrust and suspicion between the two countries.

The speaker admitted that the time had not arrived for self-government in India, but he urged the government to approve unconditionally the right of self-determination for the rest of the empire in the assistance of the Allies.

Truth is Inexpensive.—To those who entertain a cynical, indulgent, or cynical attitude toward the education of any element, the statement that "Truth is Inexpensive" is a valuable reminder.

The speaker admitted that the time had not arrived for self-government in India, but he urged the government to approve unconditionally the right of self-determination for the rest of the empire in the assistance of the Allies.

Truth is Inexpensive.—To those who entertain a cynical, indulgent, or cynical attitude toward the education of any element, the statement that "Truth is Inexpensive" is a valuable reminder.

"This I tell," the man replied. "I am here only to go away."

"I am here only to go away," the new arrival continued. "Have you any job?"

"Well," answered the native slowly, "we think we have, but we can't prove it to him."

"What's the matter with Wilson?" "He's all white."

Farmers Urge Plans For Period After War

Many Suggestions Made to New Commission on Development.

Many suggestions connected with the future development of the Dominion, in an agricultural sense, particularly in the economic and developmental Committee.

Farming organizations, asked to present their views on the various measures proposed to help the country, have done so in voluminous memoranda which ask that the government pay attention to the growing point.

The collection, and the various reports relative to the agricultural products.

The inauguration of a comprehensive plan whereby farmers may have more control over the market, stock yards, and similar institutions, was one of the principal recommendations made by the producers and consumers.

Agreement in connection with production, marketing and consumption and the adoption of a uniform code of legislation for the establishment of co-operative organizations.

Concerning the setting up of the vacant lands of Canada and the future development of the country for agriculture and colonization, it is proposed to consider carefully the proposal that the Canadian government should be afforded an opportunity of securing the co-operation of the Canadian public in the work it has in hand, and that the government should seek written views or to appear personally will be acted upon every reasonable opportunity.

Fourteen committees of inquiry are quarters are 24 Victoria street, Ottawa.

Pain In the Back

Usually Comes from Muscular Rheumatism

Do not worry about a pain in the back. The worry will do you more harm than the pain itself. The most bane of muscular rheumatism, which is painful enough, but not necessarily dangerous, is the fear of muscular rheumatism, so it is a stiff neck, stiffness of the back, and stiffness of the joints that keep their general health up to the highest standard by the use of Minard's Liniment Cures.

The Belgian Relief Committee guarantees that an ounce of feed sent from Canada goes into German stomachs.

Five hundred pounds of flour, made by starving Belgians, at Ottawa, comes through the Belgian Relief Committee.
